## The ORGANO™ Ganoderma Difference: From Ground to Cup

What makes ORGANO™ Gold products so special? A little-known ingredient known as Ganoderma. There's nothing common about this species. Ganoderma lucidum is a very important type of mushroom because of its extensive use in traditional Asian medicine.

For thousands of years, Ganoderma lucidum has been recognised by practitioners of traditional Asian medicine as the highest ranked of all herbs found in the Chinese pharmacopoeia. The Chinese name for Ganoderma, Lingzhi, means "spiritual potency," while the Japanese name, Reishi, can be translated as the "King of Herbs."

Dr. Shi-Jean Lee – the most renowned doctor of the Ming Dynasty – strongly endorsed the effectiveness of Ganoderma in his famous book Great Pharmacopoeia [Ban Chao Gang Moo].

ORGANO™ is the only North American company who has partnered with the largest certified organic Ganoderma plantations in the world to bring this “treasure of life” to the Western world. In 2009, ORGANO™ and its partners celebrated the groundbreaking opening of their \$240 million Gano Herb Industrial Park, the largest of its kind in the world.

The agricultural and food scientists at ORGANO™ and its partners start off with only organically grown Ganoderma. Employing the latest technologies, they gently dry, sterilise and process the mushroom from a tough, wood-like cap, into a fine powder using only natural processes. After the Ganoderma mushrooms have been transformed, they are added to our Gourmet coffee, tea and OGXFenix products.

## ORGANIC GANODERMA LUCIDUM

Experience the undiluted Organo Ganoderma lucidum. It takes the longest time to harvest (8 months) and can only be collected once during a life cycle. Given its extended harvest time, Ganoderma lucidum is known as the 'grandpa' when compared to its counterparts.

90 capsules per bottle • Item Code: 801  
NPN: 80034408

## ORGANIC GANODERMA LUCIDUM SPORE POWDER

Spores can only be obtained during Ganoderma's natural lifecycle and cannot be replicated through artificial growing methods.

90 capsules per bottle • Item Code: 803  
NPN: 80037892

## GANODERMA LUCIDUM MYCELIUM

With only a harvest time of 21 days, OG's Mycelium has the shortest life cycle before being collected, which is why we refer to it as the 'baby' of the three types of Ganoderma.

ORGANO™

REFRESHING

## ORGANO™ Essentials PREMIUM CLEANSING SOAP BAR

ORGANO™ Essentials is a cold-processed soap. This is quite a time-consuming process that allows for more gradual saponification. It can take 4-6 weeks for the soap to complete its process. The lack of heat keeps the essential oils intact. It takes patience, but we think it's worth it! Cold-process soap has the advantage of a gradual, more natural chemical reaction, resulting in a more nourishing, skin-compatible soap.

### Key ingredients

Apricot seeds  
Coconut oil  
Ganoderma Lucidum  
Grape seeds
